

## Red Cross Prepares

A new service club to Hialeah High this year is The Red Cross Club, sponsored by Mr. Tom Border. Goals of the club are to collect money for the Red Cross, to be volunteer hospital workers, to organize emergency first aid squads for all school activities and to help in all drives of the club as a group in aiding the needy of our county.

Members of the club are chosen from each homeroom, as representatives. William Hernandez is president this year.

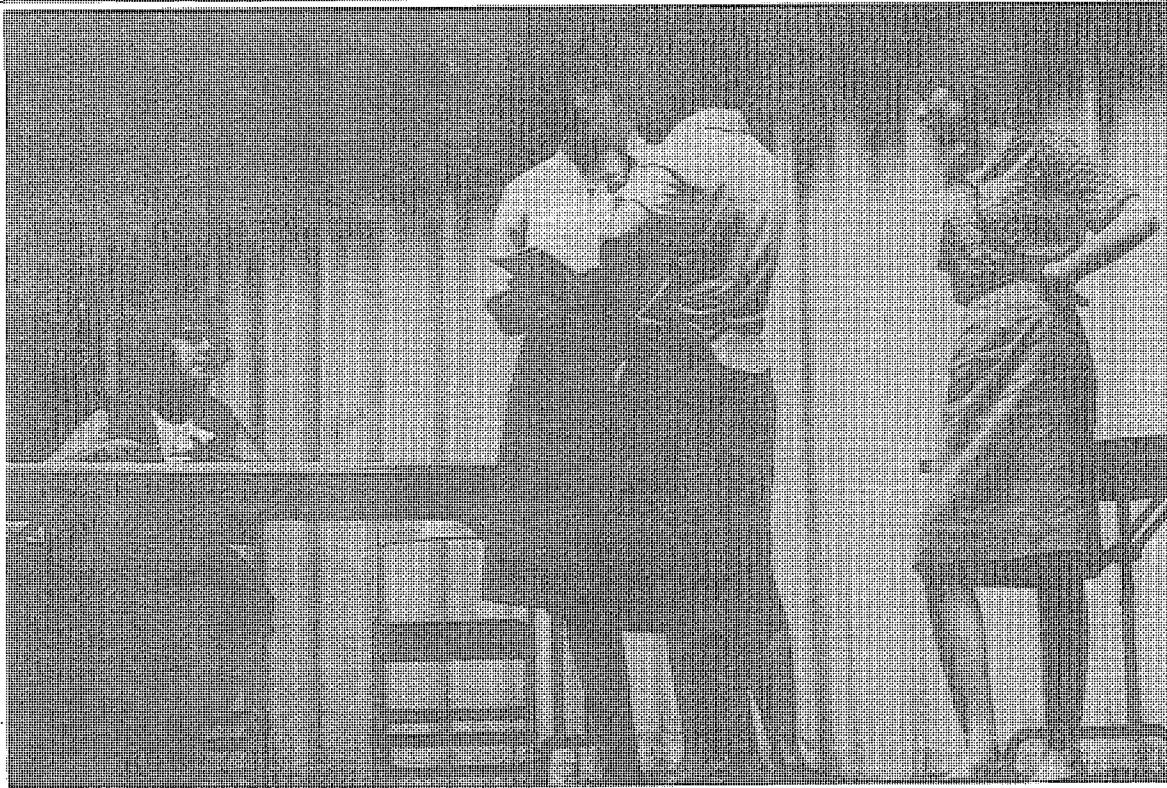

The first meeting of the club was in session Wednesday, September 27, to get the club in progress. Because of the differing times of Hialeah's three shifts there will be two meetings twice every Wednesday, one in the afternoon and another in the evening at 7:00 p.m. in either the cafeteria or room 325.

## Unlucky 13 Lucky For H. H. S. Students

Friday the thirteenth, usually considered a day of bad luck, will be observed as a holiday by Hialeah High students.

October 13 is the day set aside for teachers' planning. Marking the end of the first six weeks grading period, the teachers will have a day's opportunity to average grades and place them on the IBM cards.

This grading period will close Thursday, October 12 and report cards can be expected October 25.

SOME OF THE CAST preparing for the production of Twelve Angry Women, are: Diane Brockway, Pat Riley, Miss Sandra Riley, director, and Marilyn Hayes.

## 'Twelve Angry Women' to be First Student Production

"Twelve Angry Women" by Reginald Rose will be Hialeah's first dramatic presentation this year.

The play, under the direction of drama coach, Miss Sandra Riley, and student director, Sheri Vaughn, was originally cast as "Twelve Angry Men."

This is a three-act play about a murder trial. It concerns the twelve female members of the jury who are trying to do their duty to

see that justice is done but the verdict is delayed because there is always one in disagreement.

The three performances will be given October 26, 27, and 28. Student admission is \$.75 and adult tickets are \$1.75.

Miss Riley announced the cast as: foreman of the jury, Narvanna Ronning; juror number two, Judy Bradshaw; juror number three, Diana Brockway; juror number four, June

Gurney; juror number five, Dawn Weitzelbright; juror number six, Karen Scott; juror number seven, Marilyn Hayes; juror number eight, Maureen Twomey; juror number nine, Pat Riley; juror number ten, Lynn Campiren; juror number eleven, Ursula Weinholtz; juror number twelve, Carol Isley; and Lynn Purra, guard.

Kort Frydenborg, 1961 Hialeah graduate who attended the U. of M., Shakespeare Repertoire, this summer commented on the play, "Marilyn Hayes and Maureen Twomey have captured the spirit of the whole play and the characters they portray. I think they know what they're doing."

"Urusla shows promise. When projection gets up she'll be a main attraction."

Sheri Vaughn stated, "This play is exciting and full of suspense. It is definitely one worth seeing. I'm sure we'll have a full house every night."

## Photos Displayed

Award-winning entries from the 1961 Scholastic-Ansco Photography Awards are now on display in the library during the regular library hours.

Winners were selected from over 35,000 entries submitted by junior and senior high school students throughout the country. From the 120 national award-winners, 34 were selected for a traveling exhibition. These photos are being exhibited all over the country from October, 1961, through May, 1962.

Preliminary judging of the photographs took place in 331 regional competitions throughout the U. S. Winners were forwarded to New York City, where a panel of experts made the final decisions. Awards of \$100, \$50, and \$25 were made in each of the fifteen classifications.

These annual Awards are sponsored jointly by Scholastic Magazines and Ansco.

## Air Force Testing

The United States Air Force is conducting an Air Force qualifying test in the Hialeah High cafeteria, October 28th at 8:00 o'clock that morning.

This is an aptitude test opened to all young men who are interested in joining the Air Force to fulfill their military obligations.

Testing results will point out the best possible location for appointment in the Air Force's many opportunities for advancement, or for that matter any military organization.

## Musicians To Give First Show

The music department is already preparing for future performances in this school year. The first show, which will be given by the Symphonic Band and the Tropical Knights, is scheduled for Thursday, October 12, at 8 p. m.

The music that will be played includes "The Gallant Boulevardier March," by John Cacavas; "Irish Rhapsody," Charles O'Neill; and "Richard III," by Edward German.

The jazz section of the program will include "Begin the Beguine," by Cole Porter; "I Got Rhythm," by George Gershwin; and "Fascinating Rhythm," by George Gershwin.

Other music which will feature sections of the band are "Fantasy for Flute," by Albert Leader Jr., which will feature the flute section; and "Five Mellow Winds," by David Scharke, which will feature the saxophone section of the band.

Tickets will be on sale at \$.75 for adults and \$.25 for children.

## National Merit Semi-Finalists Are Announced

The names of the four National Merit semi-finalists of Hialeah High were formally announced on September 27. The four are Robert Poole, whose score was 148; Lynn Kinsky, 146; Peter Gulotta, 145, and Lawrence Roberts, 141.

These students are among approximately 10,000 seniors in the country who attained semi-finalist status through their high scores in the National Merit Scholarship competition.

Each of the Semi-finalists will receive a Letter of Commendation. 50% of these students will receive some scholarship assistance from a source other than National Merit.

The Semi-finalists will next take the three-hour Scholastic Aptitude Test of the College Board. Students with the highest scores on this test will become finalists.

## H. H. S. Hosts New Interns

With the opening of school, and the welcoming back of students and teachers, Hialeah High School also greeted wholeheartedly a group of young interns who may someday have the pleasure of teaching at Hialeah.

These interns are a group of young men and women who someday plan to teach high school. They are here now to observe students and watch the procedures by which our regular teachers instruct.

These interns are:

Carol Griffiths, French and English, and Peggy Raiss, English, from Barry College.

Jean Diane Knight, Mathematics; John E. Blank, English; Robert Hinder, History I & II; Samuel R. Lee, Jr., Mathematics, and Rodney Lee Reeves, Art, from Florida State University.

Beverly A. Crelly, English; Susan Kinzer, Biology; Barbara D. MacDonald, Physical Education; Larry Heffer, Physical Education, and Charles Halsted, Physical Education, from University of Miami.

What do the new interns think of Hialeah High? Intern Robert Hinder says, "I am enjoying my stay at Hialeah very much, and wouldn't mind one bit being appointed a member of the regular teaching staff here."

## Students Participate In United Fund Drive

Hialeah High students will have the opportunity to participate in the United Fund Drive this year.

This is the only drive within the secondary schools approved by the school board for this school term.

Edward F. Swenson, Jr., U. F. general campaign chairman, commented, "This program does not call for any quotas or any pressures to be exerted on an individual student, homeroom, or school except the stimulation of participation by returning the envelope with or without a contribution."

The emphasis, therefore, is on participation and not on the amount of the contribution.

STUDENT COUNCIL EXECUTIVES are: left to right, Lee Mendez, Vicki Smith, Walter Fohs, Sue Walburn, Sandy Olivera, Maggi Earnest, and Steve Tate.

## Student Council Five Attend District Meet

Student Council's district five meeting was held at Miami Beach High. Attending the meeting were five of H.H.S.'s student council executive board: Bucky Fohs, Steve Tate, Maggie Earnest, Cheri Henderson, Sue Walburn.

"The aim of these meetings is to help clear up school problems by inter-district discussion," says Walter Fohs, Hialeah's present prexy.

In H.H.S.'s district are about 24 other schools which send delegates to the meetings. Among them are Edison, Palmetto, Key West, South Broward and Jackson. The major problems were discussed in small groups headed by the various schools.

This year in co-operation with the other schools of her district Hialeah will assist on a "project report." This will be a booklet listing all of the money-making and service projects carried on by the various clubs and councils of the schools.

# The Record Speaks

## Opportunities Available

By Nancy Franks

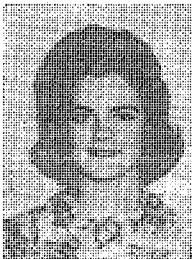

Despite the number of scholarships available to the students of this school last year, and the number that was accepted, there were still many available that weren't even applied for.

The college bound students should seek all the information available in regard to his particular field of study from his counselor. If you are as yet undecided as to your future plans, your counselor has in his possession a complete study and accurate account of what you have achieved and where your interests have been throughout your entire school life.

In every students hands are the opportunities to make use of his abilities. If you are among those who is not considered college material or have decided against going on to higher education, then you should pay particular attention to those companies and corporations who will take the expense of training you for a particular craft in their establishment.

There are many business schools and training schools in this area where you can profit under their supervision and instruction.

Unlimited opportunities are for the high school students who will take advantage of them. Sophomores as well as seniors should be aware of these as the sophomores have three more years to better prepare them for the developing of their futures.

### We Say It Every Day

## What Does It Mean?

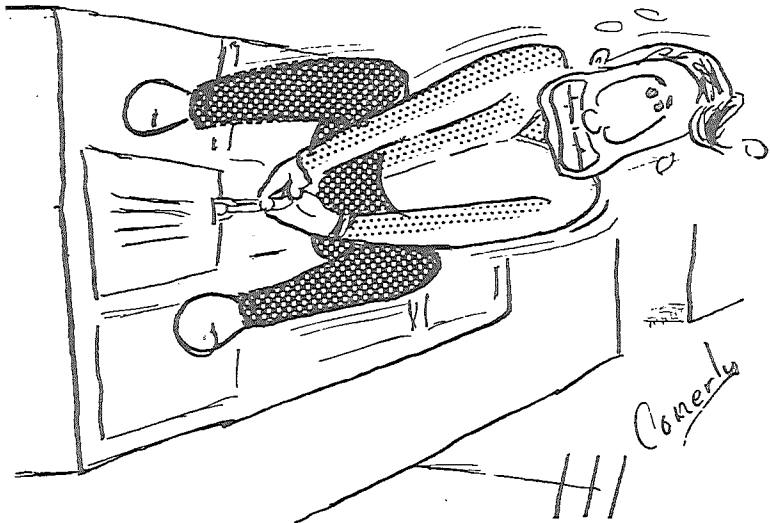

"I pledge allegiance to the flag . . ." Just what does this mean to you? I suppose to most people, the pledge to the flag is just something we say every day; just another thing teachers think up for us to do.

Though we say it every day most of us don't realize that it means that we are pledging our "undying" allegiance to the flag, a symbol of democracy and freedom.

To most of us, freedom is only something in history books. But the colonists in 1776 realized what freedom meant. They fought and died for it.

" . . . One nation, under God, indivisible . . ." simply means that we are one nation, all believing in and worshipping one God. " . . . with liberty and justice for all . . ." means that in this democratic country, every one, no matter what race or creed, is entitled to liberty and justice.

When we say this, let us keep in mind that these are not just a lot of empty phrases. When we are saying this, we are pledging our undying allegiance to our country.

## Great Leader Forgives

Are we forgetting about important virtues in this mechanized modern world?

The two greatest of these: patience and forgiveness seem to be diminishing.

Many overheard conversations end with, "Well if that's the way he feels about it, tough. I'm not going to speak either". Youth, wake up, life is too short to be unkind and carry grudges, when this precious time could be enjoyed in friendship.

As one great teacher once said, "Forgive, do good to those who harm you".

This is where patience comes in. In order to have forgiveness one must also have patience. Neither can survive without the other. If these virtues were practices every day, hate and ill-feelings would cease. If others fall, don't fall with them, stand above in these respects and a truly great person you will always be.

## Vehicle Owner, Practice Safety

Attention, all students that drive vehicles to school! There has already been an auto accident at school.

When you are driving, you have hired yourself for a full time job so make it one. If someone in the backseat wants to show you something, don't turn around even for a second. Use your rear-view mirror. If you're driving, don't socialize with Joe or Jane. Three good ways to prevent accidents are: keep your mind on your driving, keep your hands on the wheel, and keep your eyes on the road. Bear this thought in mind: how would you like to be the driver of a car that had hurt or killed someone?

Fellow pedestrians, you can also help. Don't try to beat the cars to the corner. If you think you are that good, try out for the track team.

## Hialeah Paper Doll

LINDA LEE CRAVEY, a pert little junior is dancing her way to success. She studies at the Marilyn Lorrain studios and has been offered a contract with a movie production, but was unable to fulfill it. Linda not only dances, but she models professionally with the Jose Pindar and is a judge for Richards Department Stores in Miami for the Miss Teenage America Contest.

## Hammerskjold Epitaph Based On Tagore

Dag Hammarskjold is dead. The world has lost a great man; a man who dedicated himself for peace.

He based his own epitaph on the theme of a poem by Sir Rabendranath Tagore:

"Listen to the rumblings of the clouds, O heart of mine. Be brave, break through and leave for the unknown."

Mr. Hammarskjold recommended this theme as a model for the U.N.

But how can you students apply this theme to yourselves? How can you decide what these words CAN mean to you?

Perhaps if you recognized the "rumbling of the clouds" as (1) suggestions you have received by others, wiser than yourselves—teachers, parents, and advisors—you would heed their remarks and perhaps understand your problems better, (2) read and study the speeches and writings of the great and the respected leaders from the present and the past. (3) heed the threats and promises of the leaders who continue to disagree with the methods and traditions of democracy. Some threats are false and empty, while others are loaded and could erupt in world-wide disaster.

By understanding and consideration you may be able to solve many problems you have yet to encounter. Such is the base of the future.

LET US PLAN to be brave, to break and leave for the unknown.

## S. Council Needs Support

Everything at Hialeah is going along just fine. There are the usual activities, football games, dances, pep rallies and others that all of us enjoy. Usually these affairs are sponsored by clubs here at school. These clubs do a splendid job. They sell tags, build school spirit, decorate the school with posters, donate services to the school, in fact the clubs just about run the social life of the school.

At H.H.S. is one club of which each student is an actual member, the Student Council. You would think, that with this club having so many members, that it would be the most influential club in the school and do the most for the student body. But although it tries to do things, not enough members of the student body will get behind them. This club should be the student government. We should stand by it and work for it. It's the only way to get what we want done.

Start now and support your Student Council, the students' government.

## When To And Not To

There are two kinds of cleverness and both are priceless. One consists of thinking of a bright remark in time to say it. The other consists of thinking of it in time not to say it.

Galen Drake

## Frontiers, Pioneers Open New Horizons

Paris skirts, bouffant hairdo's, slim jims in the White House. All of these modern innovations arrived with the Kennedy administration. Along with the new things, old ones assumed importance on the heels of the new chief executive. The most important of these was a word. This word J.F.K. considered so important that he built his first days of government upon it. The word is "FRONTIER". It is not its first appearance on the AMERICAN scene.

Long before Kennedy our ancestors pondered this meaningful noun. To the plainsmen, sculptures of America, frontier meant vast herds of bison, hostile Indians, abundant wildlife and untold riches to the men who were strong enough to take them.

To the early settlers "frontier" brought up visions of gloomy forests, rolling hills, rich soil and harvests, sometimes of fruits but often of family sickness and sorrow. These were the Pioneers.

Through America's panoramic past the word frontier slipped like a vital ghost. So today the word has regained its importance. In the demise of the literal frontiers new ones have sprung.

There is the frontier of "International Peace" where to succeed one must push through black forests of human greed and cleave the tangled vines of international misunderstanding.

The frontier of medicine beckons to the hearty. There one must ford rivers of research to reach the banks of sickness cures.

And there are many more. There are frontiers of religious faith, government, education and welfare each needing pioneers to challenge their secrets.

## Tomorrow Isn't Too Late

Many of today's teenagers have adopted one of the most fatalistic attitudes ever known to man. This attitude has been produced by international tension; thus one may hear, "Why don't we live it up now? We might not be here tomorrow."

This is all very well, and quite practical, too, if the world is absolutely, positively, for sure, going to end tonight at 12 midnight. But—if tomorrow does come, and it has a regular habit of doing so, these teens may find that although they had their good time, there is nothing to show for it, and they are worse off than before.

Where there was once self-confidence, there is now only a sense of defeat; where there was once ambition, there is now only a half-hearted search of the abstract accomplishments of life.

These teens will find that they have wasted some of the best years they will ever have, and without acquiring anything, perhaps not even an education, that will ever do them any good.

It is reasonable to pretend that tomorrow will come, because if it doesn't, it won't matter; it is folly to waste today because tomorrow may never come—after all, it always has before.

## Defeat Talk? No!

Hialeah High School's football team will probably face the roughest competition it will ever see in its first four games. Not only will it be facing formidable opponents, but an added enemy, the ghost of last year's defeats and heartbreaking ties.

These will be the games in which student enthusiasm and support will probably play one of its most important roles. This year the football team will need all the help it can receive to help it win.

Too many times this reporter has heard talk of defeat and last year's unimpressive record. This kind of talk is the kind that will lay the ground-work for a defeatist attitude that, once set in, will be hard to get rid of. If you can't talk about victory, don't talk at all. Remember, the team needs support, and only you can give it.

# Portrait of Feature Editor

By Beverly Knight

Friday afternoon

Hi!  
Today I'm not in the mood to study my history, biology, English or art, so I'll just jot a few lines to you RECORD readers. As it is evident I'm the new feature editor succeeding Pat Fitzgerald. I must admit I had mixed emotions but I plan on presenting my page to the best of my abilities. This is my second year of journalism and I hope to make page three as interesting as possible for each of you.

KNIGHT

...I consider myself the typical, average American girl. I'm the typical, average, 5 foot 5 inches and I have typical, average, features... I like... football... basketball... bowling... swimming, going to the movies, T.V. WFUN, talking on the telephone, dancing, boys, and bacon, lettuce and tomato sandwiches.

I have two teenage brothers and a five-year-old sister, a Mother, Father, and a parakeet.

I'm the treasurer of my church group and president of my home-room 11,14.

I had an ambition a while ago to become a Key Club member until I found out I couldn't pass the physical — oh, well, there's always Quill and Scroll.

That's all I have time for today. My mother just informed me that I'd better GET in the mood to study my history, biology, English and art.

Saturday night.

Me again.

Man, was I ever embarrassed THIS evening!

I was out to dinner with a certain someone. I ordered veal cutlet in Parmaisgne; I must admit that it was spicy and right out of the oven.

The atmosphere was just right — soft music, dimly lighted, and he was explaining the complexities of his job and looking deeply into my eyes... I daintily popped a newly cut piece of veal into my mouth. THEN I realized I didn't let it cool off a little.

I had a system—but a piece of meat, let it cool while I ate the vegetable, and then proceed to eat it; anyway I goofed!

That meat was SO HOT tears

## Enjoys Teaching

If by chance you have had the pleasant experience of seeing an English teacher with a warm smile, a look of distinct intelligence, and an obviously bubbling sense of humor; well that means, that you have run into the one, the only Mr. Francis Wargo.

Mr. Wargo was born in McKeesport, Pennsylvania. He studied at George Washington University, University, while he was in the service, and later attended and graduated from the University of Miami. He has lived in Miami for five years, is married and has three children, all boys: "To my relief," he states. "I wouldn't know how to cope with girls." Mr. Wargo enjoys teaching high school English, and says, "If I had to teach any other subject I think I'd teach geography. It was one of my favorite subjects in school."

"I like Hialeah High as a school," he remarks. "But it's really the student body of H.H.S. which makes it a pleasure to teach here."

# Student Drivers

If it's from Hialeah High, it's got to be the biggest and the best! With this in mind, sophomores equipped with new-found confidence and the knowledge that their insurance policies were well in order, went to the driving range and proceeded to uphold the Hialeah tradition. You can well be proud of the sophomores. They not only made the biggest and best mistakes ever seen at Hialeah—they even made some never before heard of!

Tears were shed, feelings were demolished; not to mention those precious fences which keep them from mingling with the more informed and licensed drivers. The required driver education course made tyrants out of normally calm, cool, levelheaded people as they fought the battle between man and machine.

The machine, a huge monstrous Detroit-made heap of nuts, bolts, and other assorted pieces of iron and steel, appeared to be winning the battle in most cases.

Since the driving hasn't been perfected quite yet, you would expect them to be entrusted with jalopies but no — that would be too simple. If given big shiny limousines with power steering, power brakes, and just about every other luxury you can think of, they will feel twice as bad if even scratched.

There's only one consolation, sophomores. Despite the mistakes and accidents, they've been made before and undoubtedly they will be again.

## To Stick Or Not To Stick

The question has arisen whether or not chewing gum will lose its flavor on a bedpost during the night. Now there may be some logical debate as to the answer of this question because of the situations in different persons' bedrooms.

In the first place, not many people have bedposts on their beds anymore. Secondly, some people have the unfortunate luxury of having roaches and ants in their houses. This fact makes sticking your gum somewhere on the bod rather risky to say the least.

My goodness, who wants gum that has been run over by tiny feet during the night. But, if you're lucky enough to have a bedpost, privileged to have anti-roach gum, you'll probably have a mother who is against sticking gum anywhere.

## The Tedious Twister

By Lurlene Gallagher

I think that there shall never be,  
A thing more madding to me—  
Than the inconsiderate stupid slob

Who sets and spins the radio knob.

A slob whose hands are never idle,  
While over the silver knob he Siddles.

He wanders gaily from station to station

As if it were his sole vocation;  
From song to news to loud commercial,

He twists the dial and wildly chuckles

(This in itself is most grating),  
And asks, "My friend, is this irritating?"

Radios were made for the happy listener,

Not the maladjusted twister!

## Personality of the Month

### Drama Coach-Miss Riley

Miss Sandra Riley, dramatics teacher of Hialeah High for the past two years, is the featured October Personality of the Month.

Graduate of Barry College in 1960 where she obtained her B. A. degree, Miss Riley is also studying for her M.A. degree in Dramatic Arts at the University at Michigan in Ann Arbor.

She hopes to receive that in the summer of 1963.

She has a full schedule planned for students this school year beginning October 26 with the opening of the play, Twelve Angry Women. The cast includes Foreman, Narvana Ronning, Juror number 2, Judi Bradford; number 3, Diana Brockway; number 4, June Gurney; number 5, Dawn Weitzel; number 6, Karen Scott; number 7, Marilyn Hayes; number 8, Maureen Twomey; number 9, Pat Riley; number 10, Lynn Campion; number 11, Ursula Weinhalten; number 12, Carol Isley; Guard, Lynn Parraga.

December promises comedy in "My Three Angels," and a musical is planned for February, "Tinian's Rainbow."

The last play to be presented will be the traditional Senior Class Play.

The long hours involved in presenting plays, and especially in such a full schedule, is often not realized by the student body. Unfortunately they do not appreciate the efforts put forth by the students and director. The plays are produced for the entertainment of each individual and the best possible is to be presented.

"The student can always find a good evening of entertainment and relaxation in the theater," said Miss Riley. Miss Riley hopes to see all of you at the play.

Season tickets are on sale and may be obtained from any Thespian or cast member. The cost is \$.75 for students and \$1.75 for adults.

"We are striving for a realistic portrayal of a jury room situation of today. I think we are making rapid progress along these lines. I am grateful for the fine cooperation of the players and I know they will succeed," stated Miss Riley.

## Consider Paris for Future Education

By Rose Marie Menes

Thought about going to one of Europe's most fascinating cities, Paris, to further your education? I have, and out of idle curiosity, one day, I went up stairs to room 709 and discussed this idea with the French instructor, at Hialeah, Mr. Alvin J. Olsen, who has gone to France to live, study, and learn the ways and customs that the French people are so very famous for.

Talking with Mr. Olsen, was an exciting and beneficial experience. In fact he has fully convinced me that this would be a wise and fascinating experience to pursue.

### BEGINNING PROCEDURE

The first thing one must do if he is interested is to locate transportation to Paris.

Next would be the cost of college. "This is practically non-existent," says Mr. Olsen. Tuition, complete costs about \$2500 for full four years.

One of Hialeah High's students, Angelo Clasca, has seriously looked into the idea and says that for him to study a world relations course at Sarbonne University, will cost him about \$175 a year.

### ACCOMODATIONS

"Other expenses are living accomodations. The universities do not supply dormitories for students," explains Mr. Olsen. "So the student will have to make other arrangements for this. If a student is willing to struggle as his fellow French students do, he can probably locate a room for maybe a dollar a day; food also will cost about the same. Baths are expensive in France. That is why some Americans don't care for this way of living. If a student really wants to learn the ways and customs of the French, this is the best way to do so.

There are student hotels that do have accomodations for foreign students. These rooms run about \$60 a month, with all modern conveni-

ences, even that new invention from the west, the bath tub.

### SOCIAL LIFE

University social life, as fraternities, sororities and such are non-existent. Students are in school for one purpose only and that is to study. If a student desires a social life he must find other means for it. France is full of theatres, with ballets, operas, dramatic production, and concerts for those who enjoy the fine arts. These are opened year-round. Also, there are museums, famous landmarks, parks, and many cafe's that are full of people and sociable surroundings. It's up to the student to seek these places and learn to become a customer to them.

"I recommend Europe for anyone who considers going the idea. It's a good experience for it will open a person's eyes to many things. By living in Europe, a person will begin to understand what some of the great leaders of foreign countries mean, when they say, we should raise our standards for education," states Mr. Olsen.

# Chess Club Is Formed

Chess Club, one of the many interest groups open to H. H. S., students, meets Mondays after each shift in room 808.

President James Davis and other officers Steve Schmidt, David Haupt, and Richard Jones help to instruct novices in the fine points of the game.

Tournaments are held within the school, and an interscholastic chess team will play in two major tournaments later in the year.

## COMMUNITY DIVISION FORMED

Another division of the Chess Club is open to all members of the community who are interested in learning, or further developing skill at chess. This group meets Mondays at 7:30 p.m. in room 808.

The activities of these evening meetings include instructions for beginners, and tournaments, both within the group and with clubs from neighboring communities. Members may also enter in local individual tournaments, such as the Coral Gables Open, and divisional and state competitions.

Mr. J. Gannett, sponsor of both divisions, stated, "We know there are many good chess players in our school who have not joined our group. If our school is to make a showing in the county tournaments this year, we must use the best of our school's talent. To do that, we must get that talent together."

"Our night group's success will depend upon the adults of Hialeah, Opa-Locka, and Miami Springs, and that includes our high school students. It would help a great deal if our students would mention it to relatives and neighbors."

## Clubs Take Note

Mr. Goff, Activities director, requests that all club members take note of the following announcement concerning all club activities at the school at night.

1. Teacher-sponsor must be present at all times.
2. Student and teacher dress shall be the same as daytime school hours. (Shorts, pedal pushers, and slacks are not permitted.)
3. Use of rooms shall be approved and assigned through the activities office.
4. A quiet atmosphere shall prevail at all times—passing in the halls and during the meetings.

There are night classes here at school; therefore the same rules and regulations that apply to daytime class hours also apply at night.

NANCY FRANKS and Honoria President Pam Reese admire the signboard which was painted by fellow Honoria members Sheri Vaughn, Michelle Noone and Sandy Pristas as one of the service club's projects.

## Interest Clubs Offered

Many students are not aware of the opportunities offered by interest clubs, although Hialeah has many such clubs.

Service clubs will not be open for new members until the end of the first grading period; however, many interest clubs are available.

The purpose of an interest club is to help students expand their knowledge in the fields in which they have special interest. Future Teachers, Future Business Leaders, Future Nurses, and Future Homemakers aid in helping students gain valuable knowledge of their future professions. Youth for Christ helps students to lead better Christian lives.

For sports-minded girls, Girls Athletic Association offers various intramural sports. The National Forensic League develops public speakers.

The Thoroughbred Topics will announce the meetings of these clubs, and all students are invited to attend.

Future Business Leaders officers for the school year are Diane Dixon, president; Beverly Couletti, vice-president; Diane Soton, secretary; Eileen Dorta, treasurer; Clara Thompson, reporter; and Diane Tuting, chaplain. Members of F.B.L.A. are making and selling Hialeah dolls for one dollar.

A small club of girls known as the Future Homemakers of America has received more applicants for membership than ever before. Nearly 80 girls have applied during the past few weeks... Mrs. C. Jones, F.H.A. sponsor, expressed her feelings saying "The home economics department certainly isn't failing in telling the girls about F.H.A. Apparently, interest has grown in the minds of these girls to become better homemakers."

Geri Hennings, president of F.H.A., said, "With all the applicants

received, I just hope to make this club as enjoyable and interesting as expected."

During the past weeks members of Tri-M, under the direction of their advisor, Mr. William Inglis, have been going about to homerooms collecting information for the student directory. This directory, sponsored and produced by Tri-M, will consist of the names, addresses, and phone numbers of all H. H. S. students. They will sell for about 35 cents.

A brand new club, Spanish Honor Society, was organized with the idea of promoting interest in the Spanish language and countries. Officers are Liz Fernandez, president; Maria Prado, vice-president; Esther Farmer, secretary; and Roberta Rusk, treasurer. Marie Burns is chaplain, Deanna Schultz, historian, and Kent Mommsen, sergeant-at-arms.

Meetings will be informative and interesting as the members will have speakers address the club on Spanish customs, countries, and traditions.

Tapping for new members will be after the second six weeks for third and fourth year Spanish students.

The Future Farmers of America sent five Hialeah boys to Kansas, October 5 to represent the state of Florida in the National Poultry Judging Contest. Usually only one delegate is sent, but because the Hialeah Chapter won the state poultry contest at Tampa last year, members of the judging team will also attend. The boys are Ricky Roberts, Doug Orr, Ronney McCrane, Larry Broadway, and Hoyt Northcut, the president of the Hialeah Chapter.

The team and representative were accompanied by Mr. B. G. Cromer. All the expenses will be paid by the chapter.

# Wheel Sets Up Scholarship Fund

The Wheel Club of Hialeah High School has started the year off with a good many projects.

The first is the football ushering and seating arrangements at home games, suggested by Mr. Harry Walton and executed by Wheel Club members and their sponsors, Mr. Kenneth D. Jenkins and Mr. John M. Jenkins. Wheel Club maintains a Student Section, admission being gained by the presentation of a student I. D. card, and the Quarter Back Reserved Section for Quarter-Back Club members and their guests at these games.

## Honoraria Hums

The month of October is going to be full of Honoraria activities.

Beginning with October 7, the club sponsored a Hawaiian Swim Dance at the Airlines Hotel. The dance was complete with swimming, leis, festive music, flowers and lots of fun. The 1962 Honeys were introduced; Tami Capeletti, David Nederveld, Steve Lewis, Walter Fohs, and Kippy Knowles.

October 11 the annual teachers' get-acquainted-tea will be presented in the cafeteria after school.

Thursday the new officers will be installed at a dinner party at president Pam Reese's house.

Applications will be accepted at the close of the month for new members.

Up coming projects for fund raising are the annual selling of stationery, and the sale of miniature ducks and mice pins. Christmas cards will also be sold by all Honoraria members.

## Junior Deb Girls Get Acquainted

Jr. Debs held a get-acquainted-tea September 27, at 3:15 and 4:15 in the cafeteria to accept applications for membership. A grade average of "B" scholastic and "A" citizenship is required for all hopefuls.

According to Donna Richardson, president, the tea was quite a success. "We were very pleasantly surprised at the large turn-out after each shift. Jr. Debs will have a wonderful year by the amount of enthusiasm shown by the students."

Amid the thronging masses, Donna wove her way making the acquaintance of applicants. Cookies and punch were served while applications were written out.

Also present were vice-president, Georgia Sharpe, secretary, Elka Karles; treasurer, Sharon Bristoe.

Recently elected sweethearts are Bob Boykin and Bob Whitaker.

Secondly, is the Hialeah High School Wheel Club Scholarship Fund, where by an outstanding Hialeah senior will be presented with a scholarship toward tuition and, or books for the first semester in college. Wheel Club intends to raise the money for this commendable project by smaller projects throughout the year and the "Wheel Club Scholarship Ball" during the second semester in which all profits accumulated will go toward the fund.

Any Senior may apply and he or she will be judged by the Hialeah High School faculty, the final selection being made by the Wheel Club sponsors, on long range scholarship conduct, moral character, leadership, and community work. The winner will be announced at the awards assembly at the end of the school year.

A third project will be the "Hialeah High School Hall of Fame" in which the top two or three senior who have done the most for the enhancement of Hialeah High School will be represented. These seniors selected by the faculty, will be judged on their potential to carry this quality on into future life. In addition, their pictures will hang on a designated wall space in Hialeah High School. The winners will also be announced at the awards assembly and presented with a trophy.

A fourth project will be the washing of windshields on faculty cars as a service to teachers. This project will be presented in the near future.

Graceful Moderns Dance For Recreation

Strike or Spare?

SHOWING THEIR VARIOUS SKILLS in modern dance are Beth Wingate, Sherry Vaughn, Carol Willing, Mary Lee Krumm, Joyce Quigg, and Sue Fryatt. They will be practicing and warming up for a future symposium.

Hialeah High's Modern Dance Classes have been busy at work planning for activities that will take place this school year.

"We have added another class this year," explains Miss Rose Marie Slacks, physical education instructor, because we have so many new students interested in modern dancers. We have planned many things that we get done this year.

They are planning a half-time show with Mr. Logan Turrentine for one of the football games. They are also working on a routine with the dance combo, Autumn Capers, an assembly will combine with another department. This year they are planning as usual to have a Modern Dance Club to meet after school. This will be open to those interested in the field of dance.

When spring comes, Hialeah will be host to many of the Dade County schools in a county Work Shop to see what other modern dance classes have planned. There will be a well-known person to talk to the group on the dance.

All in all we have a well rounded schedule and hope to do our best by making this club more influential in the school," say the students in modern dance.

Memberships Granted For G A A Members

Girls' Athletic Association had its first meeting open to future members Friday, September 29.

"G.A.A. is a club that you could say is open to all girls interested," commented Corresponding Secretary Linda Gallattscheck. "You really don't have to be the least athletically inclined. Just come out for the diereent intramural teams and earn your points."

Ten points are given every time you come out for a sport and also for officials. If you try out for a sportsday team, you receive 25 points and if you make the sportsday team you receive 75 points. Officials receive 25 points.

In order to join G.A.A., a girl must have earned 150 points by

Thanksgiving, which is the time of initiation.

Points mount up from year to year, and for the first 1,000 points a letter is given; for 2,000 points numerals are added; and for 3,000 points a bracelet is given.

Girls with the highest amount of points from their class also receive an extra award—a trophy.

Different trophies for the most improved player, the best sport, and others are also given at the yearly banquet.

In order to meet with all the different girls at least once a month, G.A.A. will hold a meeting on Friday for the two early shifts, and on Tuesday night for all the members.

Debaters Form Student Congress

Mr. Ralph Carey, head of Hialeah's speech department, has been holding a Student Congress in his three debate classes. The two first year classes are sequel to the house of Representatives while his second year advanced class is called the Senate.

The congresses are run as close to regular Congresses procedure as possible.

Presiding officers are elected every two days, bills are presented and argued upon, action is taken, and if the bill is passed, it goes to another house for further action. Parliamentary procedure is used to keep meetings in order, and moving smoothly.

Mr. Carey feels that these Congresses serve many purposes: they help students become interested in the nation's affairs, by originating and passing bills, they make better speakers of the students by giving them practice and parliamentary experience, and the pupil can gain a working knowledge of how a bill becomes a law.

Bowling Resumes for Classes

Bowling commenced again this year for all physical education classes.

The juniors are starting for the first time, and will be shown the various techniques of bowling by the instructors at the bowling alley.

For the use of a pair of shoes, alley, and bowling ball, with one game bowled, the price is only 35c.

They will be going to either the Palm Springs Bowling Lanes, or the Hialeah Bowling alley... Buses will also be provided by these alleys for the students at the beginning and the end of the periods.

Each student bowls a complete game and vies for the highest score in his classes. Contests are also held by each of the classes where perhaps one class will compete against the other, or perhaps groups of three will compete against other groups of three.

The best bowlers, boy and girl, for the entire year will receive a trophy. Similar awards are also given to the various classes.

The bowling unit is designed to make bowling more fun for all participants, as it is one of America's fastest growing indoor sports. The students will go bowling once a week.

"Survival" Project For Sophomores

A new enrichment project has arrived in the HHS English Department. Called "Survival", this is a collection of paperbound books based on survival, in the terms of physical, social and moral.

The unit consists of 28 different books with individual views or treatments of survival. However, 19 of these short selections — fiction, non-fiction, and verse—are actually centered on the "survival" theme.

As a class project, each student will be assigned a book appropriate to his or her reading ability and interests. Then all the students will group together according to the books they have read and make oral reports.

In these groups, discussions will be carried-on, according to the definite thought or plot of the book pertaining to survival.

Through this new anthology and the wide range of selected books, students will now be able to explore human characteristics revealed at times of crisis, and discover answers to key questions such as: "How can I face problems of survival?" "What qualities must one have to prevail?"

Leaders are Different

"Let it bounce! It has to bounce first!" was a high pitched shout from many of the sixth period Leadership class.

Some looked on in awe. "It couldn't be possible," they said. In volleyball you don't want the ball to bounce, or do you?

"No," the Leadership class said. "All we are doing is practicing different methods that will help the sophomore more in volleyball. It really isn't a different game or anything. We're just experimenting."

Also different from the same everyday game of volleyball is where you have two balls coming at you at once. I mean when they are both heading in your general direction, it really creates a problem.

Conference Held At S. Broward

Twelve students from the Hialeah Hi-Ways, and the Hialeah High RECORD went to South Broward High School, Saturday, September 30, for their annual journalism conference.

Speeches were given to the different groups on different phases of work on the annual and paper staff.

The newspaper group had talks by well known newspaper workers on the layout of a page and vari-

ous techniques in making any old story into something new and exciting, which will hold the interest of the readers.

The annual staff were shown how to fit different pictures on a page to make it look diffieffrent and original.

Then they were shown how much their compositions counted in making their annual quite unique.

Riveria Scores Twice

T-Breds Roll 25-2

Hialeah High scored the first time they got their hands on the ball and didn't stop until they had a 25-2 victory over Palmetto.

The T-Breds took the opening kickoff and marched 55 yards for their first touchdown. James Nash

Colts' Corner

By Manuel Gispert

Quarterback John Dance's spectacular 55-yard touchdown run, on a Curley punt return, led Hialeah's Colts to a 14-7 victory in their opening game of the "61" season.

The game was played at Hialeah's Municipal Park.

Hialeah, behind 7-0 at intermission, came back to score two touchdowns in the third quarter to pull out the victory.

Curley drew first blood, as the visitors scored on a 12-yard pass play to notch a 7-0 halftime lead. The Knights penetrated deep into Colt territory on two other occasions, but a determined Colt defense stopped the Knights cold.

In the third quarter the Colt offense began to roll. Right halfback Bruce Sturgiss skirted his left end enroute to a 25-yard touchdown run. Mike Costlow, the Colt's huge fullback, bulled his way through the Curley line for the tying extra point.

Dance's touchdown was a freak play. Curley punted on fourth down to the Hialeah 45-yard line, where the ball stopped. Dance, to everyone's amazement, scooped up the ball and scooted 55 yards to paydirt, to give the Colts their victory. Once again Costlow banged through the Curley line for the extra point.

Nov. 1—M. Beach—Away  
Nov. 8—N. Miami—Away

smashed over left tackle for the score. The try for the extra point was no good.

Hialeah stopped Palmetto cold and took the Panthers' punt on their own 45. This time the T-Breds took eight plays to score with Nebo Rivera going over right tackle. The extra point was good, making the score 13-0 with 11:58 left in the second quarter.

Later in the second quarter Hialeah took the ball over on downs on their own 21. The first two plays netted seven yards but on the next play Tommy DeLopez cut through tackle and rambled 72 yards for the touchdown... The kick was again no good for a 19-0 lead.

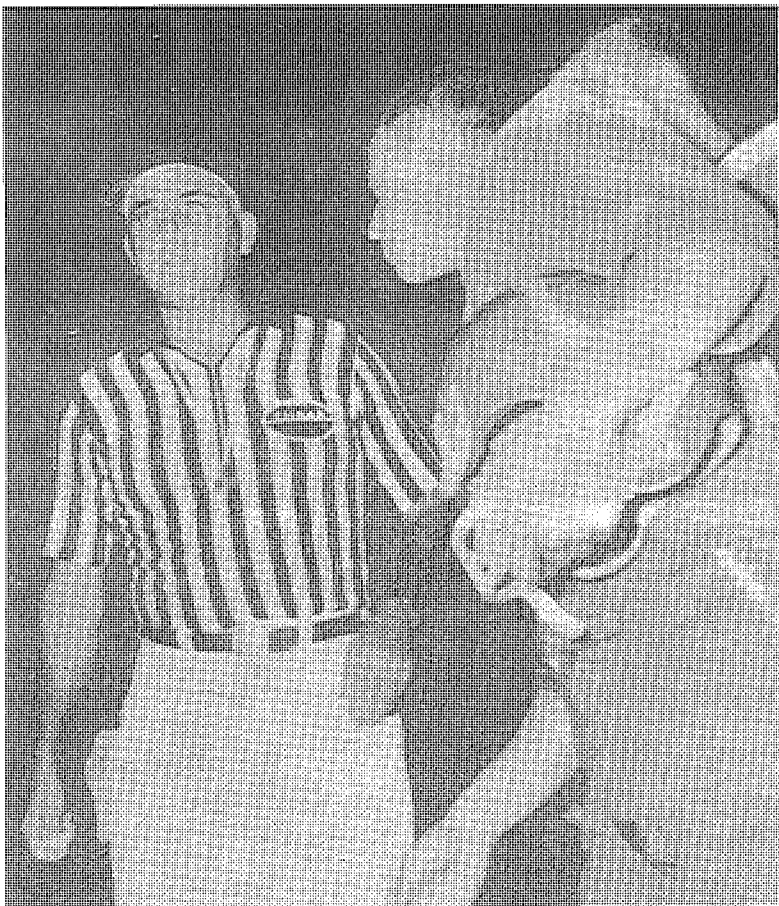

The T-breds recovered a fumble on Palmetto's 26-yard line. In five plays Hialeah had its fourth and final tally. Rivera again went over from the one-foot line for the score. The PAT was no good, leaving the score 25-0.

Hialeah held the Panthers to 37 yards and one first down which came with 1:41 left in the second quarter. During the same time the T-Breds ran up an amazing 221 rushing yards.

Palmetto got into the scoring column when Tom Chamberlain tried to run a punt out of then end zone but was tackled by Gasper Kovachk. This entitled the Panthers to receive a free kick from Hialeah.

Hialeah has now won two conference games which places them in a three-way tie with Southwest and Key West.

YANKS IN FIVE

By the time this issue is out the New York Yankees should be well on their way to the first World Series Championship in three years.

The Yankees with their batting power (Mickey Mantle and Roger Maris) should find no trouble in taking the series from the Cincinnati ("not so strong") Reds in five games.

JV'S BIGGEST IN HISTORY

The Colts this year will have one of the biggest in the history of Hialeah.

Hialeah's line will average about 230 pounds with the backfield tipping the scales at 190. The com-

bined total shows that they will average 210 pounds a man.

GYMNASTICS

Any boy who is interested in gymnastics this year should report to the gym on Monday and Wednesday nights at 7:00. They also practice on Saturday morning from 7:00 to 12:30.

This year's team will be coached by Mr. Saidak.

GOLF FOR GIRLS?

The golf team this year will have five returning lettermen and should better last year's record of 5-3-1 (won-lost-tied).

Returning are: Tami Capeletti, captain for the 1061-1962 season, Bob Chisano, Ben Babcock, Skip Phillips and Fred Mohel.

Coach George Dolan announced that any girl interested in being a member of an all girl team to contact him in room 608 during the fall season.

Hialeah Nets First Victory

Hialeah High won its first victory of the season as well as the first victory over Curley in six years by the score of 6-0.

The second quarter saw the T-Breds display both a good offense and defense.

Hialeah started their touchdown drive on their own 44-yard line. The first play saw Nebo Rivera break away for a 23-yard jaunt to Curley's 33. From there the T-breds took six plays to reach the four-yard line. Fullback Tommy DeLopez then smashed over right tackle for the touchdown. The try for extra point was wide.

In the same period (second) Curley moved to Hialeah's 25, where they made a first down by the length of the football. A pass from QB Bob Taylor to Carroll Williams put the ball on the T-breds' five. Here Hialeah tightened up and stopped the Knights cold with an interception by Hialeah's QB Andy Harper.

The third quarter saw Curley's Williams break away for a 30-yard run. The only reason he didn't score was that John Frazier made a sensational one hand tackle at the 13.

HOME OF THE SCHOOL LEAGUES

Hall Of Fame Claims Old Time Favorite, Max Carey

By Nancy Franks

The heavy, elderly man sat in the bleachers observing every movement of the ball game.

He chuckled, looking out over the familiar diamond-shaped field, and began to reminisce of the three decades during his 12 years which were the most important to him.

The man's name was Max Carey. I interviewed him just previous to his inauguration to baseball's Hall of Fame this summer.

Max Carey was perhaps the greatest base stealer the National League has ever seen. His life time average was .738. In one season he stole 633 bases, another year he stole 51 bases out of 53 3attempts, and one game he got two hits in one inning, twice during the game. He has since been tied for getting five hits in one game, and five hits during a game in the Worls Series.

Mr. Carey played center and left field for the Pittsburgh Pirates for 17 years after beginning his major league career in 1909. In 19332-33 he was manager, and during the

1933 season he was assistant manager for the National League All-Star team.

He faced the immortal Babe once in a World Series game. He lined a double off the Babe on a slow pitch.

After his retirement from baseball, Mr. Carey was president of the Rigley Major League Baseball League for women for the ten years it existed.

The long-time friend of author Ring Lardner, he, like his friend, is noted for several articles published in national magazines.

His advice to prospective ball players was: "Get all the education possible. Forget about pro-ball until after college."

He emphasized the fact that a good ball player must have a lot of desire and be able to sacrifice, using the thory the more practice the

better the player.

He explained that today's ball players have a terrific advantage over the "old timers" because of television and more opportunities. He advised all boys to observe the good players on television, and then try to imitate them.

Mr. Carey said that the things a scout looks for in a boy are: running and throwing ability, good field judgment, coordination, and a batting instinct. The final thing they look for are desire and attitude.

His final words to me were "fame is a fleeting thing."

The old timer turned his back to his game, contented with watching.

Max Carey — a great ball player whose records are almost legendary now, who will always remain one of baseball's greats, is now with his friends and colleagues in the Hall of Fame.
